

SRF Activity

During January, the Drinking Water Treatment Revolving Fund did not close any loans or enter into any binding commitments. One DWTRF Project, the Gilmer County Public Service District, opened bids for a water line extension. The staff is currently working with this water system to secure additional funding due to a bid overrun. The staff has worked with loan recipients on other projects to move toward advertisement for bids, project construction, and commitment of funds.

West Virginia Rural Water Association Activities

The staff has worked with Rural Water to begin a new annual contract starting in November 2004. WVRWA has performed duties as defined in the current contract.
